Erine Tieu

Software Engineer

San Francisco Bay Area

Summary

Hi! I'm Erine (pronounced like Erin). ♀Software Engineer with 6 years of experience in a startup and Fullstack Development. I've worked on everything from front-end to back-end, building products across different tech stacks. I love learning new things. I'm driven by creativity and constantly challenging myself to grow. Outside of coding , you'll find me immersed in story-driven RPG games, perfecting my latest recipe , yoga or running. Languages: JavaScript / TypeScript | Java | PythonClient: Vue | React Server: Node.js | LaravelDB: SQL | NoSQLTools / Technologies: Docker | CI/CD | Github | Figma✓# WCAG Accessibility ✓# System Design✓# Data Structures & Algorithms

Experience

Walmart Global Tech

Software Engineer, Full Stack

February 2026 - Present (7 months)

Sunnyvale, CA

Apple

Software Engineer, Full Stack

July 2024 - August 2025 (1 year 2 months)

Santa Clara, California, United States

Cevala (now Halo Branded Solutions)

Software Engineer

January 2019 - June 2023 (4 years 6 months)

San Jose, California, United States

Early Software Engineer who developed delightful user experiences for top tech companies like Meta, Adobe, Nvidia, Netflix, Reddit, and Salesforce on Cevala's flagship gifting platform. Built new features, led front-end development initiatives to improve the codebase and coding processes, and mentored junior engineers to foster growth and best practices. Cevala was the

technical arm for Brandvia and was successfully acquired by Halo Branded Solutions.

- Collaborated with cross-functional teams to ensure seamless integration and functionality.
- Implemented innovative solutions to enhance user engagement and drive client satisfaction.

Education

University of California, Berkeley
Bachelor's degree

Mission College

Computer and Information Systems & Artificial Intelligence, General · (August 2025 - December 2026)
